

**The average age for seeing porn is 12 years old**

(Yes, your 9 year old could already have seen it)

**86% of Australian teens report watching porn to learn about sex**

**Porn in 2024 normalises violence and extreme acts**

If you're worried about what your teen might be learning from porn and how this could impact their *expectations, behaviours, and relationships* in the real world join Natalie Stokell for an eye opening talk on navigating the porn conversation with your teen. Discover effective strategies to engage in open, honest discussions that promote healthy attitudes towards sexuality, and equip yourself with the tools needed to navigate this crucial aspect of parenting in 2024.

# Beyond the Birds and the Bees: Talking to your kids about PORN

Thursday 9th May 6:30-7:30pm
